King Charles II, the new monarch

At the moment the Queen died, the throne passed immediately and without ceremony to the heir, Charles, the former Prince of Wales.

But there are a number of practical - and traditional - steps which he must go through to be crowned King.

What will he be called?

He will be known as King Charles III.

That was the first decision of the new king's reign. He could have chosen from any of his four names - Charles Philip Arthur George.

He is not the only one who faces a change of title. Prince William and his wife Catherine are now titled Duke and Duchess of Cornwall and Cambridge, and the king has conferred on them the title of Prince and Princess of Wales.

There is also a new title for Charles' wife, Camilla, who becomes the Queen Consort - consort is the term used for the spouse of the monarch.

Head of the Commonwealth

Charles has become head of the Commonwealth, an association of 56 independent countries and 2.5 billion people. For 14 of these countries, as well as the UK, the King is head of state.

These countries, known as the Commonwealth realms, are: Australia, Antigua and Barbuda, the Bahamas, Belize, Canada, Grenada, Jamaica, Papua New Guinea, St Christopher and Nevis, St Lucia, St Vincent and the Grenadines, New Zealand, Solomon Islands, Tuvalu.

Bathukamma Bathukamma Uyyalo

Governor Dr.Tamilisai Soundararajan with Raj Bhavan women staff.

The colorful festival of flowers 'bathukamma' was a high light event of the year. All the women celebrated the occasion including all government departments in a form of groups.

Bathukamma is a flower-festival celebrated by the women of Telangana. Bathukamma represents cultural spirit of Telangana. Bathukamma is a beautiful flower stack, arranged with different unique seasonal flowers most of them with medicinal values, in seven concentric layers in the shape of temple gopuram. In Telugu, 'Bathukamma' means 'Mother Goddess come Alive'. Historically, bathukamma meant "festival of life" and celebrated the harvest season.

SAIL Chairman says Company delivered resilient performance

Steel Authority of India Limited (SAIL) held its 50th Annual General Meeting, at Company's headquarter at Lodi Road, New Delhi. Smt. Soma Mondal, Chairman, SAIL addressed the shareholders in the meeting, held through a virtual platform.

Smt. Mondal, in her address, highlighted the achievements of the Company during 2021-22 while underlining the future plan of the Company. SAIL has posted its best ever production performance by producing 18.733 million tonne (MT) of hot metal and 17.366 MT of crude Steel during FY'22. The Company entered for the first time into the elite club of Indian Companies having a turnover above Rs. 1 lakh crore. The turnover of Rs. 1.03 lakh crore during FY'22 saw an astronomical growth of more than 50% over the previous best of Rs. 68452 crore achieved during FY'21. The increase in turnover coupled with improved operational performance helped the Company achieve its highest ever numbers in terms of profitability.

BHEL, CMD addresses shareholders at the company's 58th Annual General Meeting

Dr. Nalin Shinghal, CMD, BHEL, addressed shareholders through video conferencing at the company's 58th Annual General Meeting, in the presence of the Board of Directors of the company, in New Delhi.

The MoU sets the performance targets for the Company for the FY 2022-23 and provides the snapshot of the milestones to be achieved by the company in respect of Financial & Operational Performance Parameters

PFC resolves India's Largest Stressed Transmission Asset

Power Finance Corporation Limited has successfully resolved the country's largest stressed asset in the power transmission sector of South East U. P. Power Transmission Company Limited. The project, comprising about 1500 km of 765 kV & 400 kV transmission lines and 5 substations in Uttar Pradesh, will significantly benefit the consumers of Uttar Pradesh. PFC was the Lead Financial Institution for the project, with REC and Bank of India as co-lenders in the consortium. This is a landmark resolution through the Corporate Insolvency Resolution Process (CIRP) under the IBC (2016), which has resulted in lenders recovering in excess of 100% of the principal amount. The project was originally allocated by Uttar Pradesh Power Transmission Company Limited on BOOT basis to Isolux Corsan Concessions SA of Spain in 2011. Through the CIRP mechanism under IBC (2016), the project has now been acquired by Resurgent Power Ventures Pte. Ltd., which is co-sponsored by India's Tata Power and ICICI Ventures, with reputed sovereign wealth funds as other major shareholders.

NMDC celebrates United India for Swachhata at Sanchi Iconic City

Campaigning for the Government of India's Swachh Bharat Mission, National Miner NMDC organized a Swachhata Event at Sanchi, Madhya Pradesh from September. Celebrating a United India for Swachhata, as part of the ongoing AzadiKaAmritMahotsav, NMDC led the Cleanliness Movement at the Heritage Site Sanchi Stupa.

Breast Cancer Has Become A Major Health Concern Across All Indian Cities

Breast cancer is the most common cancer worldwide. It is overtaken lung cancer as the most common cancer. According to reports, about 1 in 8 women have a risk of developing breast cancer in their lifetime. Reportedly, breast cancer has become a major health concern across all Indian cities. The average age of women affected by cancer in India is 40-42 years compared to that of 55-60 years in the west. A lack of awareness is one of the biggest problems for high mortality in India. For early detection and the best chances of cure, it is necessary to know about the disease.

Breast cancer is a condition where healthy breast cells grow out of control, become abnormal and start to form masses, and then spread to other parts of the body. In the early stages, the tumor is confined to the breast, and it's curable at this stage.

If the patient neglects the disease at this stage cells can spread outside the breast through blood vessels and lymph vessels. In later advanced stages, cancer cells spread to other parts of the body like the liver, bone, and Brain.

Often Breast Cancer manifests with swelling or a lump in the breast. Other symptoms are pain in the breast, bloody discharge from nipples, sudden change in breast size and shape. For diagnosis oncologist will perform a biopsy and mammogram. Once one has been diagnosed with cancer, the doctor will be determining what the stage of your cancer is with help of an imaging test like a CT scan or PET scan. Not all lumps are cancerous but only a qualified oncologist can diagnose them correctly.

Dr. Vipin Goel is one of the leading oncologists with a specialization in the diagnosis and treatment of Breast Cancer. The optimal management of patients with the breast cancer requires the expertise of specialists from different disciplines. Surgery is needed in Breast cancer to attain a cure.

There are two surgical options available to one with breast cancer. The first one is mastectomy in which the whole breast is surgically removed. The second one is lumpectomy in which the surgeon will remove the cancerous cells and leave the rest of the breast as it is. Thanks to Surgeons like Dr. Goel, Breast Cancer sufferers are now treated with Breast conservative surgery. One can achieve the best oncological outcome in addition to preserving the breast. With the latest advances in the treatment of Breast cancer, one can achieve a cure with preservation of the breast. It gives immense confidence and self respect to women. In addition to surgery, radiation therapy and chemotherapy are used to reduce the chances of recurrence. It is recommended to prevent cancer from coming back. Dr. Goel has diverse surgical expertise, breast oncology including oncoplastic surgeries is very close to his heart. He is a senior consultant and laparoscopic surgeon in the Department of Surgical Oncology at Care Hospitals, Hyderabad. The doctor has attended many conferences as an invited speaker. He has published many articles on Breast Cancer in National and international journals. Post diagnosis of breast cancer, it is crucial to get the right medical support and a team of specialists to help get over the disease.

MAK's Sustainable Canadian Wood Villa, First in India

MAK Projects, the pioneers of sustainable housing in India construct a Wood Villa in Hyderabad, an architectural landmark with certified wood from Canada.

Sustainability is more than a concept now; it's the need of the hour. MAK Projects has constructed the monumental Wood Villa constructed with certified wood from sustainably managed forests of British Columbia, Canada in collaboration with Canadian Wood. The grand opening of India's first Canadian wood model villa was held at MAK's BTR Greens, Hyderabad, recently. The Wood Villa, the electric car of housing is a part of MAK's tie-up with Canadian Wood to diversify into sustainable luxury wood housing to be developed and promoted in India.

100 such premium wood villas will be constructed at MAK's pristine gated golf course development of BTR Greens, spread over 250 acres in Hyderabad's emerging Knowledge City, offering all the conveniences and luxuries of city-life. Canadian Wood also known as Forestry Innovation Consulting India Pvt Ltd (FI India) – is a Crown agency of the Government of British Columbia. "Our team worked in close coordination with Canadian Wood over the last one year to construct this spectacular Wood Villa built over 6000 ft. The villa is spread over a plot area of 15000 sft in two levels with a large leisure and living area, kitchen, pantry, four bedrooms with ensuite bathrooms, gymnasium, games room, AV room,

outdoor sitting and expansive outdoor dining area. This is the future of construction," says Osman Ali Khan, director-Business Development, MAK Projects Pvt Ltd.

Mohd. Mahmood Ali State Home Minister & Mr. Cameron MacKay, High Commissioner of Canada in India during the inaugural ceremony.

Benefits of Wood Villa

"Wood is amongst the few natural elements that offers excellent thermal performance as a natural insulator and enables less wastage through the use of prefabricated methods. It can simultaneously achieve reduced carbon emissions, bring about increased sustainability in a building's life cycle and offer improved occupant well-being. As compared to concrete and steel, it offers high strength-to-weight ratio and ample design flexibility. Dr. Nawab Mir Nasir Ali Khan, Promoter & Managing Director, MAK Projects Pvt. Ltd

The World shifting to Mass Timber: Material used in the Wood Villa Tech giant Microsoft is updating its 644,000 sft, campus in Silicon Valley, using mass timber with its carbon and other eco benefits in mind. It will be the largest mass timber project in North America.

Walmart's new Home Office in Bentonville in the Northwest Arkansas region will be the largest mass timber campus project in the U.S. Global technology giant Google is making use of British Columbia timber and expertise as it works to complete its first ever mass-timber office in Sunnyvale, Ca. USA.

The project has been well received and supported by various local government officials, the Canadian High Commission and Canadian Trade offices based in India. This wood villaby MAK Projects will go a long way to promote sustainable construction and development in the states of Telangana and AP.

भारत में बनेंगे स्वीडन के कार्ल गुस्ताफ M4 हथियार

के तहत बनेंगे हथियार

स्वीडन की कंपनी साब (SAAB) अब भारत में अपनी सबसे चर्चित राइफल कार्ल-गुस्ताफ एम4 रिकॉयललेस को बनाएगी। कंपनी ने 27 सितंबर को इसका ऐलान किया। कहा- हम प्रोडक्शन बढ़ाना चाहते हैं। इसलिए साब भारत में कार्ल-गुस्ताफ एम4 वेपन सिस्टम बनाएगी। भारत में साब की फैक्ट्री 2024 में प्रोडक्शन शुरू करेगी और पहला प्रोडक्ट भी 2024 में ही

तैयार हो जाएगा। कंपनी के सीनियर वाइस प्रेजिडेंट गॉर्गेन जोहानसन ने कहा- फैक्ट्री ना सिर्फ हथियार बल्कि दुनिया में इस्तेमाल होने वाले अन्य हथियारों के लिए उपकरणों का भी निर्माण करेगी। नई फैक्ट्री के लिए कंपनी कितना इन्वेस्टमेंट करेगी, इसकी जानकारी नहीं दी गई है। खास बात यह है कि कार्ल-गुस्ताफ एम4 स्वीडन से बाहर पहली बार किसी दूसरे देश में बनेगी।

भारतीय सेना 1976 से यूज कर रही राइफल का पुराना वर्जन- कार्ल-गुस्ताफ एम4 रिकॉयललेस एक राइफल है। इसका इस्तेमाल भारतीय सेना साल 1976 से कर रही है। LAC पर भारत की करीब हर फॉरवर्ड पोस्ट पर भारतीय सेना के जवानों के पास कार्ल-गुस्ताफ के एम2 और एम3 मॉडल हैं। बीते कुछ सालों में कार्ल-गुस्ताफ में दुनियाभर की सेनाओं की दिलचस्पी बढ़ी है। रूस-यूक्रेन युद्ध के बाद इसकी डिमांड कई देशों में बढ़ गई है। इसके चलते कंपनी काफी दिनों से इसका उत्पादन बढ़ाने पर विचार कर रही थी।

भारतीय सेना के पास हैं ये वर्जन-इस हथियार के चार वर्जन मौजूद हैं। इसमें एम1, एम2, एम3 और एम4 शामिल हैं। एम1 को साल 1946 में, एम2 को 1964 में, एम3 को 1986 में और कार्ल गुस्ताफ एम4 को 2014 में बनाया गया था। भारत के पास इस हथियार के एम1, एम2, एम3 वर्जन मौजूद हैं।

डेढ़ किलोमीटर दूर दुश्मन को कर सकती है डेर- कार्ल-गुस्ताफ सिस्टम एक ऐसा हथियार है, जिससे कंधे पर रखकर फायर किया जाता है। यह दुश्मन को 1500 मीटर तक यानी डेढ़ किलोमीटर की दूरी तक निशाना बना सकता है। यही नहीं यह बख्तर बंद गाड़ियां नष्ट कर सकती है। यह हथियार सटीक तरीके से टारगेट पर निशाना साध सकता है। सैनिक के पास यह हथियार होने का मतलब है कि उनके पास एक कॉलीट सिस्टम है, जो दुश्मनों को हराने और टारगेट को पूरा करने में काफी मददगार साबित होता है।

क्राउन प्रिंस MBS सऊदी अरब के नए PM बने, सुधारवादी नेता, महिलाओं को ड्राइविंग का हक दिया

सऊदी अरब के किंग सलमान बिन अब्दुल अजीज ने 37 साल के क्राउन प्रिंस मोहम्मद बिन सलमान (MBS) को प्रधानमंत्री बना दिया है। मंगलवार को जारी शाही फरमान में किंग ने छोटे बेटे प्रिंस खालिद बिन सलमान को रक्षा मंत्री बनाया है।

दो और अहम अपॉइंटमेंट भी हुए हैं। प्रिंस तुर्की बिन मोहम्मद बिन फहद बिन अब्दुल अजीज को राज्य मंत्री और प्रिंस अब्दुल अजीज बिन तुर्की बिन फैसल को खेल मंत्री बनाया गया है। MBS वैसे तो डिफेंस मिनिस्टर की जिम्मेदारी संभाल रहे थे, लेकिन सच यह है कि किंग सलमान की खराब सेहत के चलते वो कई साल से सऊदी के अघोषित शासक हैं।

इन पदों पर कोई बदलाव नहीं-

विदेश मंत्री की जिम्मेदारी पहले की तरह प्रिंस फैसल बिन फरहान अल सऊद, वित्त मंत्री का दायित्व मोहम्मद अल-जादान और निवेश मंत्री की जिम्मेदारी खालिद अल-फलीह निभाते रहेंगे।

किंग की सेहत ठीक नहीं

घोषणा के बाद MBS ने एक बयान में कहा- सऊदी अरब ने डिफेंस इंडस्ट्री में आत्मनिर्भरता 2 प्रतिशत से बढ़ाकर 15 प्रतिशत कर दी है। नए डिफेंस मिनिस्टर इसे 50 प्रतिशत तक ले जाने की कोशिश करेंगे। 86 साल के किंग सलमान 2015 में शासक बने, लेकिन इसके पहले करीब ढाई साल तक उन्हें प्रिंस सलमान की तरह ही क्राउन प्रिंस के तौर पर काम किया था। उनकी सेहत पिछले कुछ सालों से ठीक नहीं है। जिसके बाद से ही डूबे के प्रधानमंत्री बनने की अटकलें लगाए जाने लगी थीं।

किंग को इस साल दो बार साल हॉस्पिटल में भी एडमिट होना पड़ा था। हाल ही में मई में उन्हें एक सप्ताह तक हॉस्पिटल में एडमिट थे, इस दौरान कोलोनेस्कोपी सहित उनके कई टेस्ट किए गए थे।

बहरहाल, कैबिनेट की बैठकों की अध्यक्षता अब भी किंग सलमान ही करेंगे।

बेहतर स्वास्थ्य के लिए आश्चर्य का भाव जरूरी

जब कोई अच्छा गाना सुनते हैं तो आप खुद को आश्चर्य चकित होने से नहीं रोक पाते हैं। इसी तरह जब कोई खिलाड़ी मैच में अच्छा प्रदर्शन करता है तो आप उसकी तारीफ करते नहीं थकते। ठीक इसी तरह आश्चर्य वाली स्थिति आपको जीवन में ज्यादा खुशी देती है। इससे तनाव कम होता है और व्यक्ति अपने बारे में ज्यादा जान पाता है।

दरअसल, कैलिफोर्निया यूनिवर्सिटी में ग्रेटर गुड साइंस सेंटर में हुए एक शोध में हाल ही में यह बात सामने आई है। इस शोध के प्रमुख शोधकर्ता डैकर कोल्त्नर ने 26 देशों के 3 लाख लोगों का एक सर्वे किया। इसमें उन्होंने पाया कि लगातार आश्चर्य चकित रहने से शारीरिक और मानसिक स्वास्थ्य बेहतर होता है। करुणा और उदारता बढ़ती है और दिमाग तेज होता है।

आश्चर्य का अनुभव कैंसर के लक्षण धीमा करता है-2018 में जॉन टेम्पलटन फाउंडेशन की रिसर्च में सामने आया था कि आश्चर्य का अनुभव कैंसर, हार्ट की बीमारियां और डायबिटीज के लक्षणों को धीमा करता है। वहीं, तनाव और चिंता को भी घटाता है। 2021 के एक शोध में पाया गया कि आश्चर्य का अनुभव करना लोगों को अपने बारे में ज्यादा जानने में मदद करता है। इससे ज्यादा धैर्य भी विकसित होता है।

शोध के अनुसार, एक आम व्यक्ति सप्ताह में दो बार आश्चर्य को महसूस करता है। लोग अपनी तुलना में दूसरों की कामयाबी से चकित होते हैं। 2018 के एक सर्वे में पाया गया कि जीवन में ज्यादा आश्चर्य अनुभव करने वाले लोग ज्यादा विनम्र होते हैं।

लोगों ने अकेले घूमने में भी आश्चर्य ढूंढा-

कोल्त्नर कहते हैं कि लोग महामारी के दौरान अकेले थे और उदास गाने ज्यादा सुनना चाहते थे। अकेले घूमना और गाने सुनने से भी लोगों में आश्चर्य पैदा होता है। लोगों ने कोरोना के दौरान आश्चर्य बनाए रखने के लिए पौधों का ख्याल रखना शुरू किया।

ज्वालामुखी के ऊपर नंगे पांव चले एडवेंचर लवर्स

एडवेंचर लवर्स का ज्वालामुखी के ऊपर नंगे पांव रस्सी पर चलने का वीडियो वायरल हो रहा है। इसे राफेल जुगनो ब्रिडी और अलेक्जेंडर शुल्ज ने परफॉर्म किया। इस स्टंट से दोनों ने गिनीज वर्ल्ड रिकॉर्ड में अपना नाम दर्ज करा लिया। इस जोड़ी ने सक्रिय ज्वालामुखी के ऊपर सबसे लंबी स्लैकलाइन वॉक को पूरा करने का रिकॉर्ड हासिल किया। वीडियो में राफेल और अलेक्जेंडर नंगे पांव 261 मीटर (856 फीट) ऊपर रस्सी पर वोल्केनो के एक कोने से दूसरे कोने पर चलते नजर आ रहे हैं। वीडियो यासर वॉलकैनो का है जो पैसिफिक महासागर के तन्ना आइलैंड पर है।

ज्वालामुखी के घघकने पर भी नहीं डरे

विलप में दोनों रस्सी पर हेलमेट और गैस मास्क पहनकर चल रहे हैं। पीछे से ज्वालामुखी भभक रही है। इसके बावजूद दोनों आगे की ओर बढ़ते रहे।

संतुलन बनाना आसान नहीं - राफेल

रिकॉर्ड बनाने पर राफेल ने एक फोटो इंस्टाग्राम पर पोस्ट की। उसमें उन्होंने लिखा - मेरे पीछे लावा बम विस्फोट के साथ यह तस्वीर दिखाती है। यह फोटो दिखाती है की सपने को पूरा करने में कितनी मेहनत लगती है। मेरे लिए संतुलन बनाना आसान नहीं था। दोस्तों और अलेक्जेंडर को थैंक्स।

2 साल तक के

बच्चों से खूब बात करें, इससे उनका दिमाग तेज होता है

छोटे बच्चों से खूब बात करें, उन्हें प्यार-दुलार दें। वे जल्दी बोलने लगेंगे। उच्चारण बेहतर होगा। रीडिंग स्किल अच्छी होगी। शब्द भंडार बढ़ेगा और आईक्यू लेवल ऊंचा होगा। एक स्टडी से यह बात सामने आई है कि जिन बच्चों से उनके 18 से 24 महीने की उम्र तक प्यार-दुलार के साथ खूब बातें की गई हैं, उनका दिमाग ज्यादा तेज होता है। यहां तक कि उनकी रीडिंग स्किल भी बेहतर होती है। हालांकि, यह जरूरी है कि इसका ख्याल स्कूल से पहले परिवार के स्तर पर रखा जाए। बच्चे की खास तरह की परवरिश की जाए, जिसमें उन्हें अक्षर ज्ञान देने के साथ बोलने की आदत डाली जाए।

मां-बाप बच्चों के दिमाग को पहली खुराक देते हैं

पीडियाट्रिक सर्जन डैना सुसकिंड कहती हैं- माता-पिता बच्चों के पहले शिक्षक हैं। वे बच्चे के दिमाग को पहली खुराक देते हैं। एनाटॉमिकल, साइकोलॉजिकल और जीन स्टडी के अनुसार, एक बच्चे का दिमाग 2 साल तक काफी विकसित हो जाता है। वह अपने आसपास की चीजों को समझने लगता है। शोध में यह भी पता चला है कि 6 साल की उम्र तक बच्चे के बौद्धिक विकास के लिए परिवार और स्कूल बराबर जिम्मेदार हैं।

अमेरिका में बच्चों की रीडिंग स्किल कमजोर-

नेशनल एसेसमेंट ऑफ एजुकेशनल प्रोग्रेस की रिपोर्ट में यह बात सामने आई कि अमेरिका के बच्चे किताब पढ़ने में बहुत कमजोर हैं।

Russia Looks to India to Fill Tourism Void

As Russia engages in the worst fighting in Europe since World War II with Ukraine, tourism is one of the worst hit sectors for the country, especially at a time when destinations are charting their way towards recovery post the Covid crisis.

Travel to and from Russia continues to be hit by sanctions, as a result the destination is aggressively wooing travelers from what it deems as more "friendly countries" and India seems to be high on the list.

At the recently-held Outbound Travel Mart (OTM) in Mumbai, one of the largest travel trade events in India, the Russian contingent descended in full force as it made a strong bid to sell the destination to Indian travelers.

Representatives from the city of Moscow City Tourism Committee and Saint Petersburg Convention Bureau addressed the media and spoke about the "abundant tourism opportunities" that the destinations offer for Indian travelers.

Strangely, Russia, a very important tourist destination, does not have a national tourism organization with their office in India, noted Mahendra Vakharia, managing director of India-based Pathfinders Holidays.

However Vakharia noted that St. Petersburg Tourism and Moscow City Tourism Committee have individually done more than their bit since the last few months and have been aggressively engaging with the travel trade through roadshows, presentations, seminars and workshops.

Japan to reopen to mass tourism from October

Japan will scrap tough pandemic-related border restrictions from October, paving the way for mass tourism for the first time in two and a half years. Speaking in New York City, Japanese Prime Minister Fumio Kishida said individual travel and visa-free entry would resume from October 11 as the world's third-largest economy seeks to reconnect with the world.

"We are a nation that has flourished through the free flow of people, goods and capital," Kishida, who is in the United States for the United Nations General Assembly (UNGA), said on Thursday. "COVID-19, of course, interrupted all of these benefits, but from October 11, Japan will relax border control measures to be on par with the US, as well as resume visa-free travel and individual travel." The move marks out Japan as one of the last economies to restart large-scale tourism and travel, with only China yet to announce plans to lift its strict border controls.

Under a partial easing of restrictions in place since June, Japan only allows tourists on packaged tours and has a cap on daily arrivals, currently set at 50,000. Travellers to the country must also apply for a visa.

Goa Tourism wins big at National Tourism Awards, bags 4 prestigious honours

Saudi tourism gets chance to bloom in UN challenge

Saudi Arabia's blossoming tourism industry is being offered the chance to grow even faster through a UN challenge that helps nurture the best businesses.

Natalia Bayona of the UN World Tourism Organization has said she wants Saudi entrepreneurs to enter her agency's Awake Tourism Challenge, whose previous winners have gained international experience and expert advice, and raised \$350 million of investment over the four years it has run. Bayona, the agency's director of innovation, education and investments, told Arab News that Saudi Arabia is a "priority because of how the country is committed to creating tourism as a public policy and as an economic sector." She added that goals in the country's Vision 2030 for "youth empowerment, women's empowerment, sustainability, and tourism" are central to the UNWTO's mission.

"We'd like to give visibility and promote Saudi Arabia as a country making a strong effort in the tourism sector," she said. The challenge is a perfect opportunity to identify Saudi-based entrepreneurs trying to solve challenges they face in the sector, Bayona added.

American tourism breaking records

There have never been so many tourists from the United States visiting Portugal as in July. In the seventh month of the year 183,215 guests with US passports entered the country, surpassing the record recorded in June (181,869 guests).

"The Americans are discovering Portugal. Until a

few years ago, it was an unknown country, but now Portugal is on the map for North Americans. It is identified as a safe country, with good quality of life and also to live and work in," Graça Didier, secretary-general of the American Chamber of Commerce in Portugal (AmCham Portugal), told ECO.

The growth trend of US tourists in Portugal "was already happening before Covid". In 2019, there were 1,202,247 guests from the United States, which almost surpassed the Brazilian market (1,281,675). In 2022, the United States is expected to stay ahead of Brazil as the first non-European tourist market: until July, there were 766,335 Americans visiting Portugal - compared to 495,880 from Brazil.

The United States will also become the fifth country with the most tourists in Portugal, only behind the United Kingdom, Spain, Germany and France. In the first seven months of the year, the UK had the most guests (1,196,174), followed by Spain (1,086,137), France (825,003) and Germany (794,772).
